

Residential Care: Heath Lodge

Heath Lodge is our wonderful residential care home. It houses 28 bedrooms with a specialist dementia unit for up to six residents. We are often complimented on our warm, homely environment and friendly atmosphere.

Food and nutrition are extremely important, and our catering department has vast expertise in catering for the elderly. We offer a wide variety of delicious meals to suit all dietary requirements. Drinks and snacks are always available and we ensure our residents have everything they need.

We offer a variety of activities for residents to get involved in if they want to. It is important for residents to get outside in the fresh air when the weather permits, and we provide plenty of opportunities to do this. We also have our own community vehicle which is available to take residents on short outings in and around Harrogate.

We work closely with residents and their relatives to plan the care that is right for them. We also work with many local healthcare professionals to ensure residents have full access to the services they need.

- Private bedrooms
- Specialist dementia care
- Homely environment
- Excellent catering services
- Varied activities
- Visitor friendly
- Individualised care plans for residents
- Dementia friendly gardens

If you are considering Heath Lodge, then we highly recommend you arrange a visit. We are always happy to show visitors around our lovely facility.
